

VISION COUNCIL

Leadership Austin is where you find your community, experience deeper learning, and where individual growth blossoms into collective impact. As the largest community leadership organization in Central Texas, Leadership Austin brings together business, government, and nonprofit leaders for open and balanced discussion around critical issues impacting the region.

Today, our mission is to connect and develop leaders to courageously engage and transform our communities. We believe that courageous leaders bring out the best in others, lead boldly through uncertainty, and prioritize a community-centered course of action, even if tough or unpopular.

We envision a future where all people and communities contribute to a better Central Texas. To meet this vision, Leadership Austin created the Vision Council. This group of dedicated mission advocates guides and fuels strategic objectives through their gift of time, talent, and treasure enabling the board and staff to achieve community-centered goals. Their support makes our mission possible.

Join the Leadership Austin Vision Council with a gift of \$1,200 a year/\$100 a month.

Vision Council members have the opportunity to:

- Gather together socially and hear from subject matter experts four times a year
- Give feedback and input on community issues as they experience them
- Shape alumni educational experiences and programming
- Participate in special projects such as new pilot programs and rebranding

Your gift provides for scholarships, staffing, convening space, technology, and creative programming to enhance the learning experience and more vibrant connection experiences. Your support ensures we continue to cultivate a pipeline of leaders who care about their city, and offer reliable, intentional programs that build a place of belonging for all.

Sincerely,

Missy Strittmatter, Chief Development Officer
